ELSEVIER

International Journal of
Food Microbiology 24 (1995) 435–439

International Journal
of Food Microbiology

Contents of Volume 24

Number 1,2, December 1994

Special Issue
Food Safety Assurance

Editorial Note ix

Review Papers

M. Schellekens, T. Martens, T.A. Roberts, B.M. Mackey, B.M. Nicolaï, J.F. Van Impe and J. De Baerdemaeker (Belgium, UK)
Computer aided microbial safety design of food processes 1

J.-Y. D'Aoust (Canada)
Salmonella and the international food trade 11

S. Notermans and P. In 't Veld (Netherlands)
Microbiological challenge testing for ensuring safety of food products 33

C. Berg, S. Dahms, G. Hildebrandt, S. Klaschka and H. Weiss (Germany)
Microbiological collaborative studies for quality control in food laboratories: Reference material and evaluation of analyst's errors 41

Regular Papers

T.J. Montville and M.E.C. Bruno (USA)
Evidence that dissipation of proton motive force is a common mechanism of action for bacteriocins and other antimicrobial proteins 53

J.W. Hastings, M.E. Stiles and A. Von Holy (South Africa, Canada)
Bacteriocins of Leuconostocs isolated from meat 75

M.E. Guerzoni, R. Lanciotti, S. Torriani and F. Dellaglio (Italy)
Growth modelling of *Listeria monocytogenes* and *Yersinia enterocolitica* in food model systems and dairy products 83

H. Einarsson (Iceland)
Evaluation of a predictive model for the shelf life of cod (*Gadus morhua*) fillets stored in two different atmospheres at varying temperatures 93

O. Reichart and C. Mohácsi-Farkas (Hungary)
Mathematical modelling of the combined effect of water activity, pH and redox potential on the heat destruction 103

P.C. Houtsma, B.J.M. Kusters, J.C. De Wit, F.M. Rombouts and M.H. Zwietering (Netherlands)
Modelling growth rates of *Listeria innocua* as a function of lactate concentration 113

C. De W. Blackburn and A.R. Davies (UK)
Development of antibiotic-resistant strains for the enumeration of foodborne pathogenic bacteria in stored foods 125

C.L. Little and S. Knøchel (Denmark)
Growth and survival of *Yersinia enterocolitica*, *Salmonella* and *Bacillus cereus* in Brie stored at 4, 8 and 20°C 137

R.H. Davies and C. Wray (UK)
An approach to reduction of salmonella infection in broiler chicken flocks through intensive sampling and identification of cross-contamination hazards in commercial hatcheries 147

C.-Y. Lee, C.-L. Tai, S.-C. Lin and Y.-T. Chen (Taiwan)
Occurrence of plasmids and tetracycline resistance among *Campylobacter jejuni* and *Campylobacter coli* isolated from whole market chickens and clinical samples 161

A.M. Romero Ayulo, R.A. Machado and V.M. Scussel (Perú, Brazil)
Enterotoxigenic *Escherichia coli* and *Staphylococcus aureus* in fish and seafood from the southern region of Brazil 171

D.W.S. Harty, H.J. Oakey, M. Patrikakis, E.B.H. Hume and K.W. Knox (Australia)
Pathogenic potential of lactobacilli 179

A. Mares, K. Neyts and J. Debevere (Belgium)
Influence of pH, salt and nitrite on the heme-dependent catalase activity of lactic acid bacteria 191

F. Crociani, A. Alessandrini, M.M. Mucci and B. Biavati (Italy)
Degradation of complex carbohydrates by *Bifidobacterium* spp. 199

G. Vlaemynck, L. Herman and K. Coudijzer (Belgium)
Isolation and characterization of two bacteriocins produced by *Enterococcus faecium* strains inhibitory to *Listeria monocytogenes* 211

E.A. Zottola, T.L. Yezzi, D.B. Ajao and R.F. Roberts (USA)
Utilization of cheddar cheese containing nisin as an antimicrobial agent in other foods 227

L. Jespersen, M. Halm, K. Kpodo and M. Jakobsen (Denmark, Ghana)
Significance of yeasts and moulds occurring in maize dough fermentation for 'kenkey' production 239

M.M. Baleiras Couto, J.M.B.M. Van der Vossen, H. Hofstra and J.H.J. Huis in 't Veld (Netherlands)
RAPD analysis: a rapid technique for differentiation of spoilage yeasts 249

V. Thurm and E. Dinger (Germany)
Application of subtyping by combined allozyme, whole-cell protein and antibiotic resistance analysis in epidemiological investigations of food-borne infections 261

W. Hazeleger, C. Arkesteijn, A. Toorop-Bouma and R. Beumer (Netherlands)
Detection of the coccoid form of *Campylobacter jejuni* in chicken products with the use of the polymerase chain reaction 273

S. Qvist, K. Sehested and P. Zeuthen (Denmark)
Growth suppression of *Listeria monocytogenes* in a meat product 283

L.A. McDougall, W.H. Holzapfel, U. Schillinger, D.E. Feely and J.H. Rupnow (USA, Germany)
Scanning electron microscopy of target cells and molecular weight determination of a bacteriocin produced by *Lactococcus lactis* D53 295

Short Communications

D.W. Schaffner (USA)
Application of a statistical bootstrapping technique to calculate growth rate variance for modelling psychrotrophic pathogen growth 309

R. Gilarová, M. Voldřich, K. Demnerová, M. Čeřovský and J. Dobiáš (Czech Republic)
Cellular fatty acids analysis in the identification of lactic acid bacteria 315

E. González-Fandos, A. Otero, M. Sierra, M.L. García-López and M. Prieto (Spain)
Effect of three commercial starters on growth of *Staphylococcus aureus* and enterotoxins (A–D) and thermonuclease production in broth 321

M. Rodríguez, F. Núñez, J.J. Córdoba, C. Sanabria, E. Bermúdez and M.A. Asensio (Spain)
Characterization of *Staphylococcus* spp. and *Micrococcus* spp. isolated from Iberian ham throughout the ripening process 329

L. Croci, L. Toti, D. De Medici and L. Cozzi (Italy)
Diarrhetic shellfish poison in mussels: comparison of methods of detection and determination of the effectiveness of depuration 337

Number 3, January 1995

Review Paper

W.H. Holzapfel, R. Geisen and U. Schillinger (Germany)
Biological preservation of foods with reference to protective cultures, bacteriocins and food-grade enzymes 343

Regular Papers

M. Sierra, M.E. González Fandos, M.C. García, M.L. García and B. Moreno (Spain)
Numerical taxonomy of an 'atypical' population of Gram-positive cocci isolated from freshly dressed lamb carcasses 363

P.-F. Gobat and T. Jemmi (Switzerland)
Comparison of seven selective media for the isolation of mesophilic *Aeromonas* species in fish and meat 375

J.L. Schoeni, K.A. Glass, J.L. McDermott and A.C.L. Wong (USA)
Growth and penetration of *Salmonella enteritidis*, *Salmonella heidelberg* and *Salmonella typhimurium* in eggs 385

H. Wang, B.W. Blais and H. Yamazaki (Canada)
Rapid and economical detection of *Salmonella enteritidis* in eggs by the polymyxin-cloth enzyme immunoassay 397

Short Communications

M.J.R. Nout, G. Tunçel and L. Brimer (Netherlands, Turkey, Denmark)
Microbial degradation of amygdalin of bitter apricot seeds (*Prunus armeniaca*) 407

A.L. Robiglio and S.E. Lopez (Argentina)
Mycotoxin production by *Alternaria alternata* strains isolated from red delicious apples in Argentina 413

K. Juríková, B. Gottwaldová, S. Jacková and J. Šubík (Slovak Republic)
Characterization of *Yersinia enterocolitica* isolated from the oral cavity of swines in Slovakia 419
